LIST OF FIGURES

FIGURE NO.	FIGURE TITLE	PAGE NO.
2.1	United States current account and budget balance (per cent of GDP)	18
3.1	Model estimation twin deficit hypothesis (TDH) and Ricardian theorem	48
4.1	Trend of the Twin Deficit Variables in Brazil	58
4.2	Trend of some macroeconomic variables in Brazil	59
4.3	Results of CUSUM and CUSUMSQ stability test	74
4.4	Response of Cholesky One S.D. innovation	78
5.1	Interrelationship among Budget Deficit, current account deficit and economic growth in Russia	83
5.2	Macroeconomic behavior of variables in Russia (1990-2018)	86
5.3	Benchmark model for estimation of TDH and Ricardian proposition for Russia	90
5.4	Stability test (CUSUM and CUSUMSQ)	105
5.5	Response to Generalized one S.D. Innovation	109
6.1	Relationship between Current account deficit and budget deficit in India	113
6.2	Impulse response function of BD and CAD	126
6.3	Extended Experiments of Response to one Standard	127

	Innovation	
7.1	Behaviour of some macroeconomic variables in China	135
7.2	Estimating Twin Deficit Hypothesis (TDH) and Ricardian Hypothesis	137
7.3	CUSUM and CUSUMSQ stability tests	147
7.4	Response to Generalized one S.D. Innovation	154
8.1	Budget deficit (BD) and Current account deficit (CAD) in South Africa	157
8.2	Trend of some Macroeconomic variables in South Africa over the period of 1990 to 2018	160
8.3	Stability test (CUSUM and CUSUMSQ)	172
8.4	Response to Generalized OBD S.B. Innovations	176
