

ACKNOWLEDGEMENTS

A research work is never a whole sole contribution of the researcher alone. It is the result of help provided by several people which, keep encouraging and motivating the researcher, throughout the journey of the research. Acknowledging their help and support and paying thanks to their contribution, is a matter of realization rather than just a simple expression in words. With the core of my heart, I, express my gratitude, to all those, who, supported me at every steps and took pains, in the journey of my research.

I feel myself blessed with many people, my teachers around me, who, with their several inputs, widened my cognitive horizon and helped me articulate my thoughts. First of all, I thank, my supervisor, Dr. Sarika Sharma, not only for her guidance, but always helping, encouraging and providing all sort of help and assistance whenever I required. She guided me with her motherly attitude than as a teacher. I will remain always indebted for her unconditional support Thank you ma'am, for encouraging me throughout the journey of my research.

Thanks invariably to all my teachers, colleagues and friends for extending their generous support and encouragement, at every step, whenever, I needed their help.

The members of my family have always been a great source of support and encouragement. I express my deepest gratitude, to all my family members, especially my husband Dr. Sajjad Ahmad, who kept on motivating me at every step, in completing my research. Without their cooperation, support and prayers, this study would never have been completed and would have remained a dream.

Acknowledgements are also due to all those, whose names have not been mentioned here due to inadequacy of words on my part, but whose inputs, efforts and support, in various forms have made this work come out successfully.
